

394 • MP

With the ever growing need for imprinted mouse pads and wrist pads, Geo. Knight Co. has responded to this need with two very exiting presses: The **394-MP 20" X 24"** & **394-MP 16" X 20"**. Both machines give you the ability to transfer high definition full color images onto these unique materials. With pin registration & easy loading templates, the **394-MP** keeps you on top of the market in product, quality, and high production capability.
