

BOTTOM TEFLON WRAP - INSTALL

1. Slide 2 FRONT corners onto the bottom table first.
Slide ONE REAR corner on next.
2. Carefully *flip the remaining corner inside out*, and ROLL/WRAP it around the corner of the table.
3. NOTE: It is common for corner seam stitches to separate. **This is normal.** *The Teflon Wrap will still Perform perfectly and LAST YEARS of heavy use!*

TOP HEATER TEFLON WRAP - INSTALL

1. Slide 2 FRONT corners onto the heater cover first.
Slide ONE REAR corner on next.
2. Carefully *flip the remaining corner inside out*, and ROLL/WRAP it around the corner of the heater.
3. PULL HARD on the fabric and guide the teflon around the last corner, until the teflon is flat against the heater.
It will be VERY TIGHT.
4. NOTE: It is common for corner seam stitches to separate.
This is normal.
The Teflon Wrap will still Perform perfectly and LAST YEARS of heavy use!
