Temperature, Time & Pressure Bar graph shown together
70 Programmable presets
Dual Pre-press timer can be turned on/off
Temperature range 32-F to 600-F
Pressing Cycle counter / Odometer
User selectable alarms / Operator Lockout / Status indicators

Small display
Only 3 digits show temp or time, but not both
No presets
Two timers always active
Temperature range 205-F to 420-F
No counter
None

Machine Features

Available as manual or auto-release – user upgradeable
Hover feature built into ALL auto-release presses
Larger Opening at back – no risk of operator scorching hands
Longer handle – far better leverage
“Supercoil” heater winding – better heat uniformity
Cut-away threadable bottom table for loading/separating shirts
Heavy steel welded framework with pivot bushings

Only available as pop-up
Hover feature only available on specific dedicated model
Smaller opening
Smaller Handle
Standard heating method
Table is not conducive to splitting/threading shirts
Lighter non-bushing framework
