

# 898 AirPro

## Digital 16x20 Shuttle Press

*Shown with optional top work table and casters*

The 898 AirPro is a high production air operated heat transfer press. Designed with high speed fusible graphics and demanding heat transfer applications in mind, the 898 AirPro delivers productivity far beyond standard heat transfer machinery.

The 898 AirPro provides the operator full and unhindered access to the pressing area, and fast pressing action with safety in mind. The automatically retracting heat platen gives the operator immediate access to the printed product after pressing for crucial post-transfer handling requirements.

For the highest production, cost effective solution for fusible graphics, lettering and heat transfer applications, the 898 AirPro is the obvious solution.

### Features & Specifications

- **Fast & smooth retracting heater platen**
- **High pressure air operated automatic action**
- **Fully digital temperature control**
- **Automatic digital timer**
- **Programmable presets**
- **Records number of pressing cycles done**
- **Lifetime warranty on heating element**
- **3-year warranty on control**
- **1 year warranty on entire press**
- **Optional interchangeable tables available**
- **Optional top work table and casters available**
- **Elec: 120V-1800W-15A / 220V-1800W-7.5A**
- **Dims: 48"L x 34"W x 42"H - 550 lbs**
